OBJECTIVE

Self-driven developer passionate about building user-centric solutions, with a strong focus on Salesforce platform development. Experienced in creating projects using Apex and Lightning Web Components (LWC) to deliver dynamic, scalable applications. Completed foundational academic projects in Java, Python, and Android as part of early technical exploration. Currently seeking opportunities that emphasize hands-on development in Salesforce technologies, especially Apex and LWC, Flows.

CAREER SUMMARY

- Salesforce Developer with over 2.7 years of hands-on experience in designing, developing, and deploying scalable solutions across the Salesforce platform.
- Proficient in Apex, Lightning Web Components (LWC), Lightning Flows, and Triggers.
- Skilled in using GitHub for version control and collaborative development, along with Data Loader and Salesforce Inspector for efficient bulk data operations and record maintenance.
- Salesforce Certified and Trailhead Ranger, demonstrating a strong commitment to continuous learning and platform excellence.
- Strong analytical and problem-solving abilities, capable of translating complex business requirements into actionable, high-impact solutions.
- Effective communicator with solid interpersonal and presentation skills, ensuring smooth stakeholder collaboration and timely project delivery.

TECHNICAL SKILLS

Hands-On Experience: Salesforce Apex (Triggers, Classes), Lightning Web Components, Salesforce Flows, Security & Sharing, SOQL & SOSL, Testing & Deployment (unit tests, VS Code, SFDX CLI), Salesforce Experience Cloud, Reusability in Apex, Git, GitHub, Data Loader, Salesforce Inspector, Workbench, Python.

Basic Knowledge: Copado, AutoRabit, Dev-Ops (GitHub Actions), C, C++, Java, SQL, Power Platform Automation, ServiceNow.

PROFESSIONAL EXPERIENCE

TATA CONSULTANCY SERVICES | SALESFORCE DEVELOPER | JAN 2023 – PRESENT

- Translated business requirements into scalable Salesforce solutions through close collaboration with internal and external stakeholders.
- Designed and developed Lightning Web Components (LWC) using wire adapters, input fields, data tables, navigation services, and Lightning Message Service (LMS) for dynamic user interfaces.
- Built robust Apex Classes, Triggers, Batch Apex, and Future Methods to handle complex logic and bulk data processing.
- Performed Apex callouts and REST API integrations to enable seamless data exchange with external systems.
- Retrieved & manipulated data using SOQL queries, handling record types & ensuring optimized performance within governor limits.
- Achieved high test coverage across Apex components to ensure deployment readiness and long-term code stability.
- Managed user access through Permission Sets, Profiles, Roles, and Sharing Rules to ensure compliant data visibility.
- Practiced version control using GitHub workflows - feature branching, pull requests, conflict resolution, & production deployments.
- Utilized Salesforce Inspector, Workbench, and Data Loader for efficient bulk operations and data maintenance.
- Designed and deployed Apex-based automation for system health checks, reducing manual effort and enhancing audit efficiency.

CERTIFICATIONS

- Salesforce Certified Administrator
- Salesforce Certified Platform Developer 1
- Salesforce Certified Experience Cloud Consultant
- Salesforce Certified Agentforce Specialist
- Copado Fundamentals
- Process Automation Accredited Professional

EDUCATION

Bachelor of Engineering in Electrical and Electronics Engineering – First Class 85.3%

College : Rajalakshmi Institute of Technology | University : Anna University
